

Kaushik Kumar Singh

Data Analyst

Kaushiksingh39@gmail.com | +918709445334 | Dhanbad, Jharkhand

Professional Summary:

Detail-oriented data analyst with a strong background in SQL, data analysis, and business intelligence. Experienced in designing and implementing data integration frameworks using Big Data technologies like Spark, with a focus on scalability and performance. Skilled in providing application support for both real-time and batch data pipelines. More than one year of experience working with Spiral Mantra, serving Dalmia Cement as a client, on various data management initiatives.

Experience:

Data Analyst

Spiral Mantra:

April 2023 - Present

- Served as a key member of the data engineering team for Dalmia Cement, providing expertise in data integration and workflow framework design and implementation.
- Assisted in designing and implementing a data integration and workflow framework utilizing Big Data technology (Spark) for loading, integrating, and managing data.
- Provided application support for real-time and batch data pipelines, resolving issues and optimizing performance.
- Actively engaged in constant learning and application of the newest features in Big Data technologies to ensure up-to-date solutions.

Skills:

- **Data Analysis:** Strong SQL/data analysis, adept at handling Business Intelligence and Data Warehousing.
- **Data Integration:** Proficient in designing and implementing data integration frameworks, ensuring scalability and performance.
- **Scripting:** Proficient in Python scripting for automation and data manipulation.
- **Data Management:** Solid understanding of large-scale data management environments.
- **Problem-Solving:** Skilled in identifying and resolving data pipeline issues, optimizing performance, and ensuring data quality.
